I submit the following for your kind consideration. On 2-4-52 I went to Coorg on two days casual leave to secure the certificate from the Assistant Commissioner of Coorg regarding my community in support of my application for regularisation of my service in the Department. On verification in the Assistant Engineer's Office, it is found that Coorg's, Kshatriya Community to which I belong to is one of the Martial race of India which is not included in the backward classes list of the coorg state as the whole community is well educated and cultured. So I cannot claim any longer that I belong to the backward class.

I have put in the application stating that I belong to backward class as I observed that the Kshatriyas of Madras Province are included in the backward classes list and I though that my community is also belong to same but only after the verification it is found that my presumption was not true for which I may please be excused.

To A.S.

Please see the petition from Sri C.P Muthappa, Radio ~~Inspector~~ Supervisor at p. 3 c.f. and the endorsement of the C.E.(Buildings and Grow More Food) at pp. 1-2 c.f. The petitioner requests that he may be confirmed as Radio Supervisor in the State Broadcasting Department by exempting him from age and educational qualifications. He has been employed as a Radio Supervisor under the emergency provisions of the rules with effect from 4th August 1948. His qualifications and experience are given at X on p.1 c.f. Please see the schedule referred to in rule 5 of the Madras Engineering Subordinate Service - Branch VI in regard to the qualifications prescribed for appointment to the posts of Radio Supervisors. The petitioner does not possess the required technical qualifications. He was within the prescribed age limit at the time of his appointment, his date of birth being 17-11-1921. As regards his claiming to be a member of the ~~scheduled~~ Backward community, attention is invited to the memo at pp. 9-10 c.f. and the reply from Sri Muthappa at p.13 c.f. No action seems called for.

2. The Chief Engineer(General) while forwarding the petition has stated that the supervisor does not possess the requisite technical qualifications. There seems to be no case for complying with the petitioner's request.

3. In this connection it may be mentioned

that the Commission has been asked separately to recruit 40 candidates for appointment as Radio Supervisors in the State Broadcasting Department. The list of the selected persons is awaited from the Commission. The services of the petitioner will have to be replaced as soon as the approved candidates become available.

4. It is not known what efforts have been ~~taken~~ made so far to replace the petitioner. His name has not been included in the quarterly report relating to the temporary appointments ~~made~~ for the period ending 31-12-1951, submitted to the Government with refernce to Memo No.5745/50-2 Pub.(Ser) Department dated 30-1-1951. The C.E. may be consulted.

5. Subject to orders, a draft memo to the Chief Engineer(Buildings and Grow More Food) is submitted for approval.
